

# Meet Libby.

The new app from OverDrive that makes eBooks and Audiobooks easy!

To get eBooks and Audiobooks from OverDrive, start by downloading the free app “Libby, by Overdrive Labs” from your device’s app store.

## Once you have the app

- Tap **FIND MY LIBRARY**. Libby predicts your library by your location.
- Add your card number: Enter your card number and password. If you don’t have a password associated with your account, a librarian can add one for you.

## Once you’re in Libby you’ll see Shelf and Library in the Footer

- **Shelf** allows you to see which eBooks and Audiobooks you currently have out, as well as those that you have on hold
- **Library** brings you to Live-Brary.com, the Suffolk County Library Cooperative collection, where you can search for eBooks and audiobooks.
- Clicking the Libby icon in the upper right corner allows you to manage notifications and settings
- Once you find the title that you’re looking for in Live-Brary, tap **Borrow**. If there are no copies currently available, tap **Place Hold**. If you place a **hold** on a title, the Libby app can notify you when the title is available for borrowing by managing your notifications.

## Once you’ve tapped borrow on the title you want

- You then return to your **shelf** and the title will appear under your **loans**
- Next to the title, you’ll select **Read With...** to pick the device where you want the title to be downloaded
- If you plan on reading on your phone or tablet select **Libby**, and you will be able to read your title in the Libby app.
- If you plan on reading on your Kindle select **Kindle**, and you will be prompted to sign into Amazon. Once in Amazon, you’ll select “**Get Library Book**” as prompted, and then the book will be downloaded to the Kindle linked to your amazon account.

## If you’re not sure what to borrow

- The Live-Brary home page has lists of titles under the **Collections** drop down menu on their homepage. You’re also able to browse by **Subjects**
- Some of these collections include **New eBook Additions**, **New Audiobook Additions** and **Now Available! Popular eBooks You May Have Missed**
